## SwiftData IOS 17 Array in random order?

[Asked 8 months ago](#)[Modified 2 months ago](#)[Viewed 2k times](#)[Part of Mobile Development Collective](#)[Ask Question](#)

Why is the order of my array random when i use the @Model macro.

14

```
class TestModel {
  var name: String?
  var array: \[TestModel2\]

  init(name: String = "") {
    self.name = name
    array = []
  }
}

class TestModel2 {
  var name: String?

  init(name: String = "") {
    self.name = name
  }
}
```

This works fine, and all the items in `array` are in the order I add them.

But if I declare both of them as `@Model1`, like this:

```
@Model1
class TestModel {
  var name: String?
  var array: \[TestModel2\]

  init(name: String = "") {
    self.name = name
    array = []
  }
}
```
