two

Some stuff 2

```
struct ContentView: View {
    @Environment(\.defaultMinListRowHeight) var minRowHeight

    var body: some View {
        NavigationView {
            ScrollView{
                VStack {
                    Text("Some stuff 1")
                    List {
                        Text("one").padding()
                        Text("two").padding()
                        Text("three").padding()
                    }.frame(minHeight: minRowHeight * 3).border(Color.red)
                    Text("Some stuff 2")
                }
            }
        }
    }
}
```

Thanks!! It is working but I have dynamic height so can't fix minHeight. If I'll fix it will show an extra scroll or my content will be truncated. Any suggestions? – Hardik Shah Apr 20, 2023 at 10:19

How very silly that they don't have a minimum size or something to let devs know that the List is in fact there, thanks for the info! – Stu P. Jun 29, 2023 at 23:22

Super helpful insights on the layout system. Thanks! – Brian Trzupek Apr 16 at 0:56
